[Docket No. 80340-8040]

Practice Before the Patent and Trademark Office

Agency: Patent and Trademark Office, Commerce
Action: Notice of Proposed Rulemaking.
Summary: This notice of proposed rulemaking sets forth changes that the Patent and Trademark Office (PTO) is proposing to the rules governing admission of Government employees to practice before the PTO in patent cases. Those rules presently permit officers and employees of the Government to be registered only if their official duties include preparation and prosecution of patent applications. A recent decision of the U.S. District Court for the District of Columbia has held that these rules are partially invalid. By this notice of proposed rulemaking, the PTO intends to conform the rules to the court's decision and to eliminate a "inactive" status designation of registered attorneys and agents who become employed by the Government, but do not engage in the preparation and prosecution of patent applications.
Dates: Comments must be submitted on or before August 9, 1988.
Address: Address written comments to Box 8, Commissioner of Patents and Trademarks, Washington, D.C. 20231 marked to the attention of Nancy C. Slutter.
For Further Information Contact: Nancy C. Slutter by telephone at [703] 557-4035 or by mail marked to her attention and addressed to Box 8, Commissioner of Patents and Trademarks, Washington, D.C.
Supplementary Information: Attorneys and agents must be admitted to practice before the Patent and Trademark Office (PTO) in patent cases. 35 U.S.C. 31; 37 CFR 10.10. The purpose of the proposed rule change is to allow federal employees who fulfill the requirements for registration set forth at 37 CFR 10.7 to have their names placed on the PTO register of attorneys and agents.

The rules, as presently written, provide that an officer or employee of the Government whose official duties include preparation and prosecution of patent applications may be registered. 37 CFR 10.6(d). Under the rule, all other Government employees will not be registered. If a registered practitioner becomes an employee, the rule requires that the practitioner's name be endorsed as "inactive."

In a recent decision by the U.S. District Court for the District of Columbia, portions of 37 CFR 10.6(d) were held to be invalid. In that case, an attorney presently employed by a federal agency petitioned the Commissioner, requesting that his name be placed (with an inactive designation) on the register of attorneys and agents entitled to practice before the PTO in patent cases. His petition was denied in view of 37 CFR 10.6(d). *In re Athridge*, 230 USPQ 470 (Comm'r Pat. 1986). Following the Commissioner's decision, the attorney sought judicial review in the U.S. District Court for the District of Columbia. The court determined that 37 CFR 10.6(d) was invalid to the extent that it precluded registration of an otherwise qualified individual solely on the basis of his status as a Government employee. Based on its determination, the court held that the employee could be registered and designated as "inactive." *Athridge* v. *Quigg*, 655 F.Supp. 779, 3 USPQ 2d 1391 (D.D.C. 1987).

The rule changes proposed herein would eliminate 37 CFR 10.6(d). The effect of removing §10.6(d) will permit otherwise qualified Government employees to be registered to practice before the PTO in patent cases. Registration, however, will not relieve any Government employee from otherwise complying with conflict of interest requirements, e.g., 18 U.S.C. §§203, 205, 207, applicable agency regulations and personnel practices, and applicable codes of professional responsibility.

Other Considerations

The proposed rule change will not have a significant impact on the quality of the human environment or the conservation of energy resources.

The proposed rule change is in conformity with the requirements of the Regulatory Flexibility Act (Pub. L. 96-354), Executive Orders 12291 and 12612, and the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq.

The General Counsel of the Department of Commerce has certified to the Small Business Administration that the proposed rule change will not have a significant adverse economic impact on a substantial number of small entities [Regulatory Flexibility Act, Pub. L. 96-354]. The proposed rule change allowing Government employees who meet the requirements set forth at 37 CFR 10.7 to have their names placed on the Patent and Trademark Office register of attorneys and agents would not be expected to result in an increase of fees charged by attorneys and agents to entities, including small entities.

The Patent and Trademark Office has determined that this rule change is not a major rule under Executive Order 12291. The annual effect to the economy will be less than $100 million. There will be no major increase in costs or prices for consumers, individual industries, federal, state or local government agencies, or geographic regions. There will be no significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

The PTO has also determined that this notice has no federalism implications affecting the relationship between the national government and the states as outlined in Executive Order 12612.

The rule change will not impose any additional burden under the Paperwork Reduction Act of 1980, 44 U.S.C. 3501 et seq. Office of Management and Budget approval of the registration information reporting requirements contained in the proposed rules was extended until July 31, 1990, OMB Control No. 0651-0012.

IMPROVEMENTS TO SERVICES

- *Bound Volumes of Patents*

We now have in place a process to ensure that all patents are sequentially organized and bound in complete sets by issue date for reference in the Patent Public Search Room.

Currently, because all patents for an issue are not always received at the same time, there usually are different sequential sets of patents in different bound volumes for a single issue. Under the new procedure, all patents will be temporarily bound, pending receipt of the entire issue of patents. Once the entire issue is received (approximately 30 days after isssue) all the patents in that issue will be sequentially organized and rebound into complete, sequential sets. This will eliminate the need to look in more than one bound volume for a particular patent document.

All of the older bound volumes of patents will also be bound into complete, sequential sets. Completion of rebinding the older bound volumes will not occur until 1990.

HELPFUL HINTS

- *Extensions of Time Under 37 CFR 1.136(a)* — Under 35 U.S.C. 41(a)(8) and 37 CFR 1.136(a), a response filed within a statutory period but outside of the period set for response may be rendered timely if accompanied by (1) a petition for an extension of time and (2) the appropriate extension fee. Experience indicates that there have been differing opinions as to the language necessary to constitute an acceptable extension of time petition. This Helpful Hint is intended to clarify the policy of the Patent and Trademark Office concerning the language required for such a petition.

An extension of time under §1.136(a) requires a petition therefor and payment of the appropriate fee. The §1.136(a) petition should explicitly request in writing an extension of time for the specific number of months needed as explained in §710.02(e) of the Manual of Patent Examining Procedure. This is the best way to avoid mistakes by the applicant or by the Patent and Trademark Office and assure orderly and efficient processing of the petition.

The following language is an example of a preferred §1.136(a) request:

Applicant petitions the Commissioner of Patents and Trademarks to extend the time for response to the Office action dated _____ for _____ month(s) from _____ to _____.

[If paying by check:]

Submitted herewith is a check for _____ to cover the cost of the extension. (Optionally, add: Any deficiency or overpayment should be charged or credited to deposit account number _____. A duplicate copy of this sheet is enclosed.)

[If paying by charge to deposit account number:]

Please charge my deposit account number _____ in the amount of _____ to cover the cost of the extension. Any deficiency or overpayment should be charged or credited to this deposit account.

Applicants are cautioned that, in order to be timely, a response must be accompanied by a *specific* reference to an extension of time. A general authorization under 37 CFR 1.25(b) to charge necessary fees to a deposit account will not be interpreted as a petition for an extension of time. For example, a response accompanied by the statement "Please charge any fees necessary under 37 CFR 1.17 to my deposit account" Would not be acceptable, since the statement does not make *specific* reference to an extension of time.

As previously indicated, a proper §1.136(a) petition must be in writing. However, when an extension of time is necessary to make an Examiner's Amendment timely, the extension may be obtained by way of a verbal communication. The verbal communication must be transcribed as a written part of the official application file record. For example, during a telephone interview with an examiner, an attorney for the applicant, in order to render an Examiner's Amendment timely, may verbally request an extension of time under 37 CFR 1.136(a) and authorize a charge of the appropriate fee to his or her deposit account. If this verbal request and authorization are transcribed as a written part of the application file record (e.g., via the Examiner's Amendment or an Examiner's Interview Summary Record, PTOL-413), the desired extension of time may be obtained. The filing date or the §1,136(a) petition and fee will be considered the date of the verbal request and authorization if this date is reflected in the written file record. If there are any questions on this notice, call Al Smith on 557-3414.

- *Box Reexam and Issue Fee* — Use *Box Reexam* for original reexamination applications to expedite processing. If this box is not used, there could be a 3–4 week delay in processing.

  All communications following the receipt of a PTOL-85, "Notice of Allowance and Issue Fee Due", and prior to the issuance of a patent should be addressed to *Box Issue Fee,* unless advised to the contrary. Assignments are the exception. Assignments should be submitted in a seperate envelope and not be sent to Box Issue Fee.

- *New Application Drawings* — Submit only one high quality copy of drawings with new patent applications. Only one copy is required or desired. The Office had attempted to encourage the submission of three copies, but compliance was very low. It was determined that it is more efficient for the Office to rely on consistency and only one copy.

  The applicant, attorney, or agent should retain the original drawing should any corrections be necessary.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries (PDLs), receive current issues of U.S. Patents and maintain collections of earlier-issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections, which are organized in patent number sequence, are available for use by the public free of charge. Each of the PDLs, in addition, offers supplemental reference publications of the U.S. Patent Classification System, including the *Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions,* and provides technical staff assistance in their use to aid the public, in gaining effective access to information contained in patents. CASSIS (Classification And Search Support Information System); which provides direct, on-line access to Patent and Trademark Office data, is available at all PDLs. Facilities for making paper copies of patents from either microfilm or paper collections are generally provided for a fee.

Since there are variations in the scope of patent collections among the PDLs and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours in order to avert possible inconvenience.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
